

UASIN GISHU COUNTY

Family planning budget analysis

FAMILY PLANNING BUDGET ESTIMATE

The budget analysis conducted in October 2018 shows that the County Government of Uasin Gishu does not have a budget line for family planning for FY 2018/2019. However, indirect family planning allocation* by the County Government of Uasin Gishu was estimated for the period 2016/2017 to 2018/2019 as follows:

To arrive at these estimates, our study examined the following documents: Budget Policy Statement (BPS), Programme Budget Estimates, County Implementation Reports, Budget Review and Outlook Papers, sector budget documents from the MoH, RMHSU, KNH and MTRH.

* Indirect allocation for family planning by County Governments was estimated per county based on workload statistics from the District Health Information System (DHIS) and subjected to county allocation to health. For FY 2018/19, the service utilization statistics and thus the rates used were recorded based on the average change between the preceding period. Then the weights were used to derive possible allocations for family planning.
